Mr. Bob Weiszmann
936 Foothill Drive
Daly City, California 94015

Dear Bob:

Your intriguing package with neither postage nor postmark and including your letter of December 23 reached me today and in perfect condition.

I think Ray Marcus would be quite interested in the result of your experiment as I certainly am. It tends to bear out what I believe and what all the probative evidence indicates.

Thanks very much for the time and trouble. I hope you can ultimately do the same thing with the Carcano and Western ammo.

You are also quite right about the lack of deformity. All the doctors testified there would have been deformity and the Report does not mention the word.

Wish I had time for a longer answer.

Sincerely,

Harold Weisberg
